DETAILED ACTION

The Group and/or Art Unit location of your application in the PTO has changed. To aid in correlating any papers for this application, all further correspondence regarding this application should be directed to Group Art Unit 2165.

EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

This examiner's amendment is in view of the Board Decision the examiner cancels the rejected claims 1-4 and 6-21, in view of being affirmed on rejection.

The entry of claim 5 in this examiner's amendment is in view of After Final Amendment of 1/11/2006, wherein claim 5, was an objected claim and was amended by applicant to include or incorporates all of the limitations of the base claim 1 and intervening claim 3, claim 5 is amended to independent form and is allowed for reasons of record.

Art Unit: 2165

Examiner's Amendment

The application has been amended as follows:

{A} Cancel claims 1-4, 6-21.

{B} Replace claim 5, with the claim 5 below.

Claim 5. A method of copy protection of information stored on an information carrying medium to be read from a reading device and transmitted to an application device for playback and/or recording, wherein the reading device continuously derives and reports to the application device a first characteristic of the content stored on the information carrying medium with the information transmitted from the reading device to the application device wherein the application device continuously derives and reports back to the reading device a second characteristic of the content of the information received by the application device, wherein the characteristics are verified by comparison of the first and second characteristics and wherein the result of the comparison is used to stop the transmission, playback and/or recording of information in case of a mismatch of the characteristics, characteristics in that summaries of the selected parts of the transmitted and the received information are used as characteristics and further characterized in that the information is store in a plurality of sectors in MPEG format on an optical record carrier and that the selection of sectors of information to be summarized is based on the value of a SCR based field of the sectors.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee.
